

ACCA Training Course Chartered Certified Accountant

What is ACCA

The Association of Chartered Certified Accountants (ACCA), established in 1904, is the occupational organization for Chartered Certified Accountants and Certified Accounting Technicians. ACCA is the largest professional occupational organization for certified accountants, with over 340,000 members and students in more than 170 countries. ACCA's head office is located in Glasgow, UK.

Professional Qualification

Students who choose ACCA's Professional Qualification (ACCA), receive training during a lead time of three and a half years in all knowledge areas of accountancy, under supervision of expert lecturers and professionals. Further, we offer students coaching and assistance at fulfilling their practical experience of three years. Following completion of ACCA's Professional Qualification and finalization of the practical component, you can be registered as a Chartered Certified Accountant (ACCA), an internationally recognized professional title.

Personal characteristics

Naturally, a feeling for figures is important but more specifically, the world behind these figures. How do you apply the most actual legislation in different situations? How do you deal with people? As an accountant, you have insight in the operations of organizations and the people within these organizations. And of course, you are honorable and trustworthy since you are dealing with sensitive and often very confidential information.

Group size and training schedule

For ACCA's Professional Qualification, the choice is made to work with a group of 25 students. We provide blended learning and this involves:

- part of the course is online, with the student being able to manage the place and time they learn,
- another part of the course is instructor-led, conducted through webinars and face to face learning where needed.

The face to face moments are conducted during 3 nights max per week. Per night, one courses of maximally 150 minutes is conducted whereby practical exercises and questions are answered.

Practical Experience Requirement

ACCA's Professional Qualification prescribes that each student should be sufficiently trained for the practical field. For this, the students have to obtain relevant practical experience during in total 36 months. The preferred practical experience location is at the current work place, under supervision of a (work place) mentor.

Prior work experience in the financial sector can be acknowledged as practical experience for this requirement.

The Practical Experience Requirement (PER) consists of an online form listing the main activities the student will need to work on during his or her studies. The PER record can be requested online and is updated via the student his personal account (*myACCA*).

Subscription procedure

The subscription starts with full completion of the subscription form. This form must be submitted at the training administration office. The final subscription will take place after an orientation interview with the training coordinator. Upon subscription, the following documents must be submitted:

- Color copy of ID or passport
- Certificate from CBB (uittreksel van CBB)
- One (1) passport photo
- Color copy of diploma and lists of marks (Dutch and English version)
- Guarantee letter¹.

The costs for these exams are SRD 175 and must be paid to the Examenbureau of the Ministry of Education at the Jesserunstraat.

Costs of study material

You have the option to order your 'eBooks' online via the website:

<https://learningmedia.bpp.com/>

This means saving shipment and customs clearance costs. You can also order the 'electronic books' via credit card after which they will be delivered promptly per e-mail. Maximally 12% of an E-Book can be printed and the further contents can be viewed electronically. The costs per E-book costs about € 25 - € 30.
